

DAVEY

ProMaster®

Model Number:
PM200BT, PM400BT

RESIDENTIAL

POOL PUMP

INNOVATIVE POOL PUMP WITH BLUETOOTH®

APPLICATION

Ideal for pool filtration, in-floor pool cleaning systems, connection to external pool controllers, heat pumps and gas heaters. Suitable for pools up to 70,000 litres**/110,000 litres**

HIGH EFFICIENCY, SUPER QUIET, WATER COOLED DESIGN

- **Bluetooth** enabled to allow set and control functionality from your iOS or Android smartphone.
- **Super Quiet** – Designed with a unique water cooled motor which captures noise and vibrations, allowing super quiet operation, rated down to 50dBa. Your neighbours won't even know it's there.
- **Fully Variable Speed Control** – The ProMaster offers the pool owner and operator total control over the speed at which the pump needs to operate, from 1,050rpm to 3,100rpm
- **Programmable boost cycling for every hour of operation**
 - For running the pump at full speed (Boost) for a pre-determined time of operation
 - Improves surface skimming providing for a cleaner pool
 - Ideal for in-floor, pop up, cleaning systems
- **Constant flow/speed compensation**
 - Helps to overcome friction losses experienced as debris builds up in your filter
 - Saves money on energy running costs*
- **Convenient** – Large 4.5 litre leaf basket for long intervals between cleaning
- **Weatherproof RJ45 communication port (PM400BT only)** – For speed adjustment via connection to an external pool controller, gas heater or heat pump
- **Backwash speed cycling technology with auto shut off** – ProMaster is designed with a schedule selectable backwash cycle that runs the pump between a low and high speeds to agitate the filter media, delivering a more effective clean. A 2 minute auto-shut-off ensures the pump is not accidentally left on draining pool water
- **Double insulated to water circuit** – Provided with an Equipotential Bonding Point for AS/NZ 3000 wiring standards

*Running your pump at low speed uses less energy to turnover the same amount of pool water.

** PM200BT: 70,000 litres; PM400BT: 110,000 litres

Note: The figures are guidelines only and are climate dependent. Please ask your Davey Dealer or contact the Davey Support Centre for more specific sizing advice.

DAVEY ProMaster®

Bluetooth smartphone control
via iOS or Android app

Weatherproof RJ45 communication port (PM400BT only)
for communication & connecting to external pool control systems or pool heaters

Large 4.5 litre lint pot provides for longer intervals between cleaning

Fully variable frequency drive
with user friendly selectable speed dial

Multi-coloured LED indicator light
for operating conditions and warnings

Loss of prime protection to protect the pump when there is no water inside the pump

High performance water cooled motor
for super quiet, efficient use all year round

Drain plug enables quick draining of the casing for easy removal and maintenance

ELECTRICAL DATA	PM200BT	PM400BT
Voltage (VAC)	220-240
